PROFESSIONAL SUMMARY

AI/ML-focused Computer Science undergraduate skilled in Python, SQL, Machine Learning, Deep Learning, Computer Vision, and Full-Stack development. Experienced in building Flask-based AI applications, recommendation systems, image classification models, and optimized PyTorch workflows for Apple Silicon.

TECHNICAL SKILLS

Languages	Python, SQL
Frameworks & Libraries	Pandas, NumPy, Scikit-Learn, Matplotlib, TensorFlow, Streamlit, Flask
Tools	MS Word, PowerPoint, MySQL
Platforms	Jupyter Notebook, Visual Studio Code, PyCharm
Soft Skills	Documentation Work, Rapport Building, Excellent Communication

PROJECTS

- **NamiVerse - AI Anime Discovery & Recommendation Platform** [REPO](#) | [LIVE](#)
Next.js, FastAPI, Python, PostgreSQL, pgvector, Groq AI
August 2026
Developed a full-stack AI-powered anime discovery platform enabling users to explore anime catalogues, track airing schedules, access official media, manage personalized watchlists, and receive conversational recommendations through Nami. Implemented a dense-vector semantic recommendation engine using SentenceTransformers and pgvector cosine similarity, integrating anime metadata and personalized user preferences to deliver intelligent natural-language anime discovery.
- **SmilePet - AI Smile Tracking & Virtual Pet Platform** [REPO](#) | [LIVE](#)
Next.js, React, Tailwind CSS, MediaPipe Face Mesh, Prisma, PostgreSQL
July 2026
Developed a full-stack AI-powered web application that uses real-time facial landmark detection to evaluate smile quality and encourage positive habits through a gamified virtual pet experience. Integrated MediaPipe Face Mesh to analyze 468 facial landmarks and compute smile scores using multiple facial metrics, while implementing secure authentication, PostgreSQL database management with Prisma, and an interactive reward system featuring virtual pets, inventory, activity tracking, and personalized user profiles.
- **BookLens - AI Book Discovery Platform** [REPO](#) | [LIVE](#)
Next.js, FastAPI, Python, PostgreSQL, OpenCV, SentenceTransformers
June 2026
Developed a full-stack AI-powered book discovery platform using Next.js, FastAPI, Python, and PostgreSQL, enabling users to scan book covers or ISBN barcodes to automatically retrieve metadata and organize their personal libraries. Integrated computer vision, OCR, and semantic recommendation models using OpenCV, PyTesseract, PyZbar, and HuggingFace SentenceTransformers to deliver intelligent book identification and personalized recommendations based on user preferences and reading history.
- **Divya Drishti - Visually Impaired AI Assistant** [REPO](#)
Flask, Python, OpenCV, TensorFlow, Text-to-Speech
February 2026
Developed an AI-powered assistive application using Flask, Python, OpenCV, and TensorFlow, enabling visually impaired users to identify objects and receive real-time audio guidance. Integrated computer vision, image preprocessing, and Text-to-Speech (TTS) technologies to perform object detection and text recognition, enhancing accessibility and user interaction.
- **Plantix - AI Plant Health Dashboard** [REPO](#) | [LIVE](#)
Streamlit, Python, Google Gemini API, TensorFlow, CNN
April 2025
Developed an AI-powered plant disease detection web application using Streamlit, Python, and the Google Gemini Vision API, enabling users to upload plant leaf images and receive instant disease diagnosis, treatment recommendations, and crop health assessments. Integrated computer vision and custom CNN-based deep learning models in TensorFlow to classify plant diseases, while providing a searchable disease encyclopedia and diagnosis history through a modern, responsive dashboard.

EDUCATION

VIT Bhopal University , Sehore, MP	Sept 2023 – Jan 2027
Bachelor of Technology – Computer Science & Engineering (AI/ML)	GPA: 8.21
Griffins International School (GIS) , Kharagpur, WB	April 2023
Senior School Certification Examination (Class 12 Boards)	Score: 87.6%
Delhi Public School (DPSJ) , Jamnagar, Gujarat	April 2021
Secondary School Certification Examination (Class 10 Boards)	Score: 94%

CERTIFICATIONS

Microsoft Azure Data Fundamentals (DP-900)	Score: 940/1000
<i>Microsoft.</i> Covered Azure data services, relational and non-relational databases, OLTP/OLAP workloads, Azure SQL Database, Cosmos DB, and Synapse Analytics.	
Cloud Computing – NPTEL (IIT Kharagpur)	Score: 77%
<i>Elite + Silver Certification.</i> Studied cloud service models, deployment models, virtualization, containerization, cloud storage, databases, security, and cost optimization.	
Introduction to Internet of Things (IoT) – NPTEL (IIT Kharagpur)	Score: 88%
<i>Elite + Silver Certification — Top 5% of certified candidates.</i> Covered IoT architecture, sensors, actuators, embedded systems, communication protocols, cloud-enabled IoT applications, data acquisition, and smart system design.
